

A pair of hands, one from the left and one from the right, are shown holding a small, realistic globe of the Earth. The hands are positioned as if cradling the globe, with fingers wrapped around it. The globe shows the continents of Africa, Europe, and Asia, along with the oceans and some cloud cover. The background is solid black, making the hands and the globe stand out prominently.

They Listen At Work

We get e-mail from a lot of people who listen at work. In fact, there are two factories in Illinois where the factory owners allow the workers to play the show over the P.A. system so people can hear it while they work! And at desks all over the world, people are listening to the show while they work.

They Listen At Home

The majority of our audience listens to the show at home. They find it a fascinating way to spend the evening. Bored with the nonsense they are spoon-fed by most television shows, many have turned to the Kevin Smith Show as their evening entertainment.

They Listen to Podcasts

They listen to our shows as podcasts. Downloadable through i-Tunes, as well as our own free podcast page, people are downloading and listening to the Kevin Smith Show every day.

Truck drivers, military personnel, store owners, lawyers, judges, mechanics, taxi drivers, postal workers—you name it, and they are listening to our podcasts.
